SENATOR CONKLING'S SPEECH.

To supply the extraordinary demand for Senator Conkling's Great Speech upon "THE "EXTRA SESSION OF 1879; WHAT IT "Teaches And What It Meass," the National Republican Printing Company has printed a large edition thereof in pamphlet form, convenient for public distribution as a Republican campaign document. Copies or this pamphlet may be had an application at our Counting-Room or Job Office, at reduced rates. Orders respectfully solicited and promptly filled.

Ir appears that there are more Republicans than Democrats, now absent on leave and otherwise from the House. This is as it should not be.

Ir is stated that the National View is supported by contributions from BEN BUT-LER's private pocket. This may account for the general crookedness of its observa-

THE Bourbon idea that President HAYES "never opens his mouth without putting " his foot in it " is a mistake. It probably had its origin in the fact that, latterly, when he has opened that organ a V-toe has ocensionally come out of it.

THE postponement of the WARNER silver the demagogues in Congress. And it came directly upon the heels of Secretary SHER-MAN'S remark that the silver question can be best treated by letting it severely alone. THE Cabinet makers are still at work fill-

JUDGE HUGHES, of Virginia, has so far fallen from grace as to receive the endorsement of the Bourbon press for his conduct on the bench. The Sunday Gazette says: "He has shown himself anything but a partisan." This means, of course, that Judge Hugmes has been yielding to the blandishments and influences of the Virginia Democracy.

TO-DAY in the House a vote may be taken on General HAWLEY's proposition to leal riders. If it is, an opportunity will be afforded to those Democrats who profess to be opposed to cancus dictation to show their independence and public spirit. But it is bardly to be expected that any number of them will take advantage of it. They are joined unto their idols.

ATTEMPT to disguise it as they may, the Olito Democratic nominations were a severe blow to Mr. THURMAN. BISHOP was Tile-DEN'S cambidate, and it was by BISHOP'S vote that Ewixo succeeded in beating RICE, who was THURMAN'S candidate. A subsequent nomination of Rick for Lientenant-Governor was the tub thrown to the whole. All the world knows that John () THOMPSON, MILTSAYLER, and all the other active THERMAN Democrats, who comprise the managerial ability of the party in that State, were for Rich first, last, and all the time, and that it required an incongruous combination between the Tildenites and

urposely prepared a loop-hole in their neuded caucus measures through which the Administration can escape from their partisan restrictions without any difficulty. A law which does not deprive or circumscribe the President in the execution of his duties as commander-in-chief of the army is certainly not the kind of a law they intended to enact when this extra session began. But it remains to be seen whether even such a law will be acceptable to the President, whose decided and patriotic ground against the interference by Congress with the prerogatives of the Executive has been so thoroughly sustained by the people at large.

While we are in duty bound perhaps to desire the election of Ewing, yet we believe the interests of the country and party would be better subserved by his defeat; and that this vill be the result we have very little doubt.

There is very much of this kind of feeling entertained in the Democratic party toward the attempt to foist Ewing, with his piebald principles and record, upon the people as genuine, when he is only plated. It is a Thurman "idee;" and a great many people think with the State that the interests twenty years. If it is ever right, it is a of the country and party will be best subserved by his defeat.

THE acquittal of all the defendants in the Chicago custom-house cases was to have been expected. There was no basis except that which existed in the prejudiced mind of a certain press reporter for the charge of conspiracy alleged against them, and it is to be regretted that in the course of the recent farce, otherwise called a trial of the cases, the court did not permit the defense to make a clear and full exposure of the bitter per-Sonal animus which prompted this persecution. Messrs, HILL, MILLS, POTTER, and the remainder have not suffered, however, tecs authorized to sit during the recess is in the public estimation from the results of this persecution; in fact, they have suffered only in pocket by way of lawyers' fees and attendant court expenses.

To the Editor of the National Republican: SIR: Having been present at the theatre on the evening of the assassination of President LINCOLN, and hearing the exclamation of the murderer as he leaped upon the stage, I was very much astonished last night upon seeing those same never-to-be-forgotten words on the procession. Can you inform me what connection the motto of "Sie Semper Tyrannis" has with that party, or with General EWING, or with the coming election in Ohio? BUCKEYE,

When the murderer of President LINCOLN uttered those words simultaneously with the dark deed which sent a whole nation into deep mourning they were emblematic of the spirit of the hour when rebellion struck its last blow at the Government by bereaving it of its Presidential head.
